

PROJECT REPORT ON
Implementing CRM for Result Tracking of a Candidate with Internal Marks
(ADMIN) - (Short-term)

Introduction: The project aim is to provide real-time knowledge for all the students who have basic knowledge of Salesforce and Looking for a real-time project. This project will also help to those professionals who are in cross-technology and wanted to switch to Salesforce with the help of this project they will gain knowledge and can include into their resume as well.

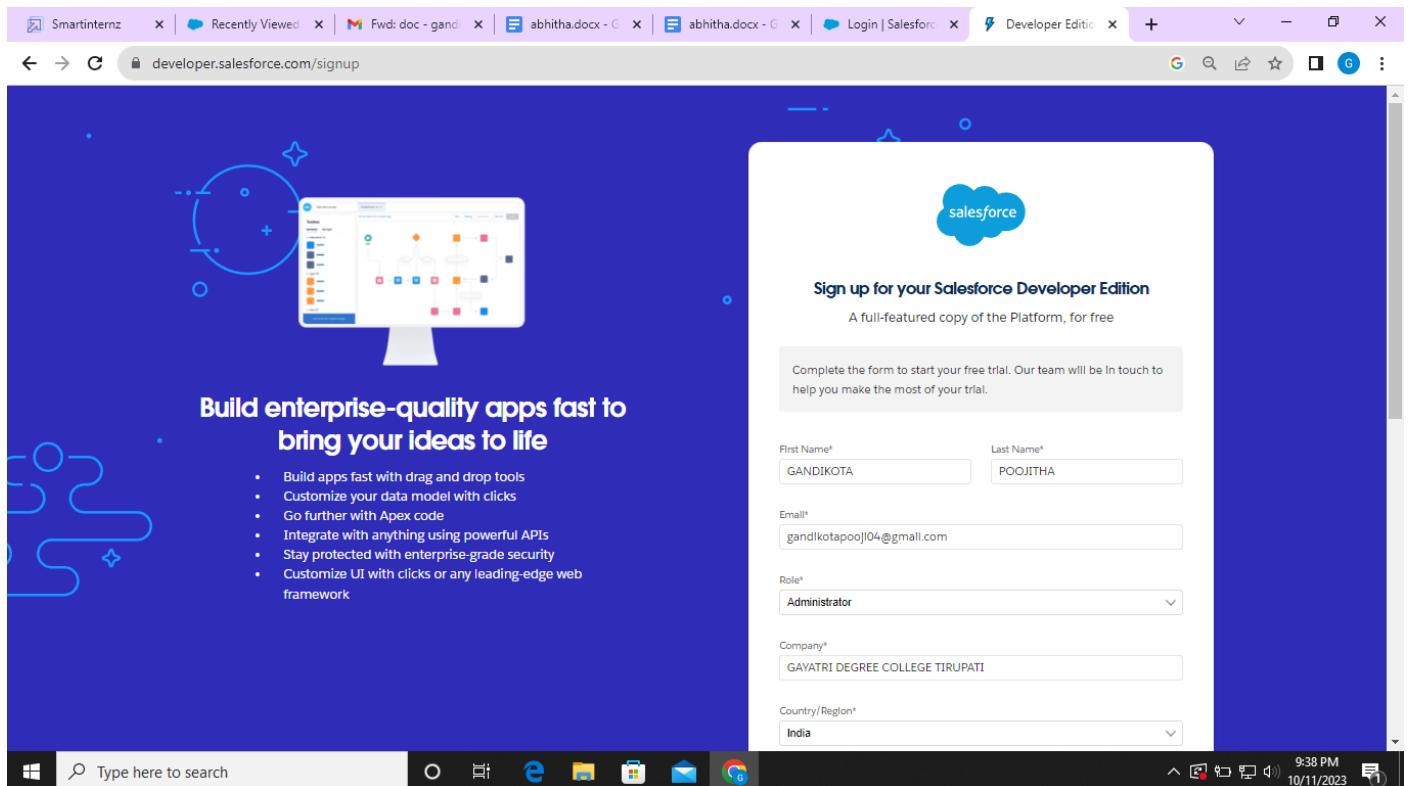

Milestone 01: Create Salesforce Org

Go to [developers.salesforce.com/Signup](https://developer.salesforce.com/signup)

Click on sign up.

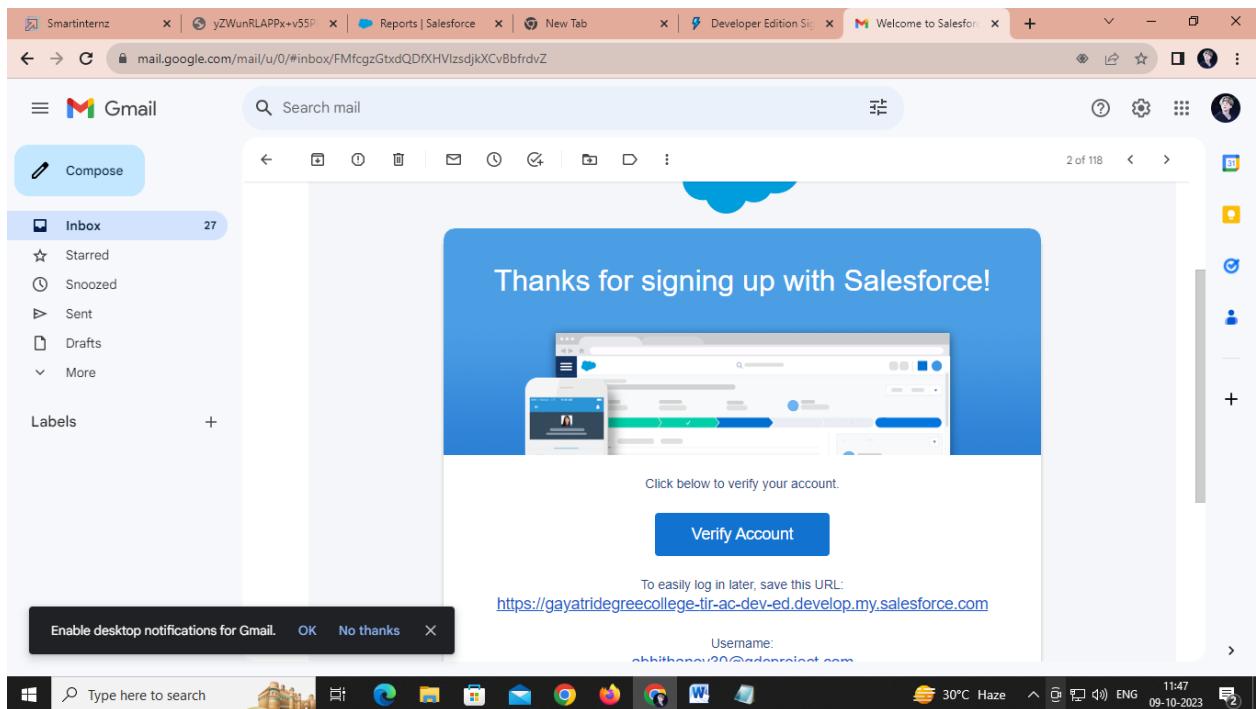

On the sign-up form, enter the following details:

1. First name & Last name –G.M.Poojitha
2. Email – gandikotapooji04@gmail.com
3. Role: Administrator
4. Company: GAYATRI DEGREE COLLEGE - TIRUPATI
5. County: India
6. Postal Code: 517501
7. Username: gandikotapooji04@gdcproject.com

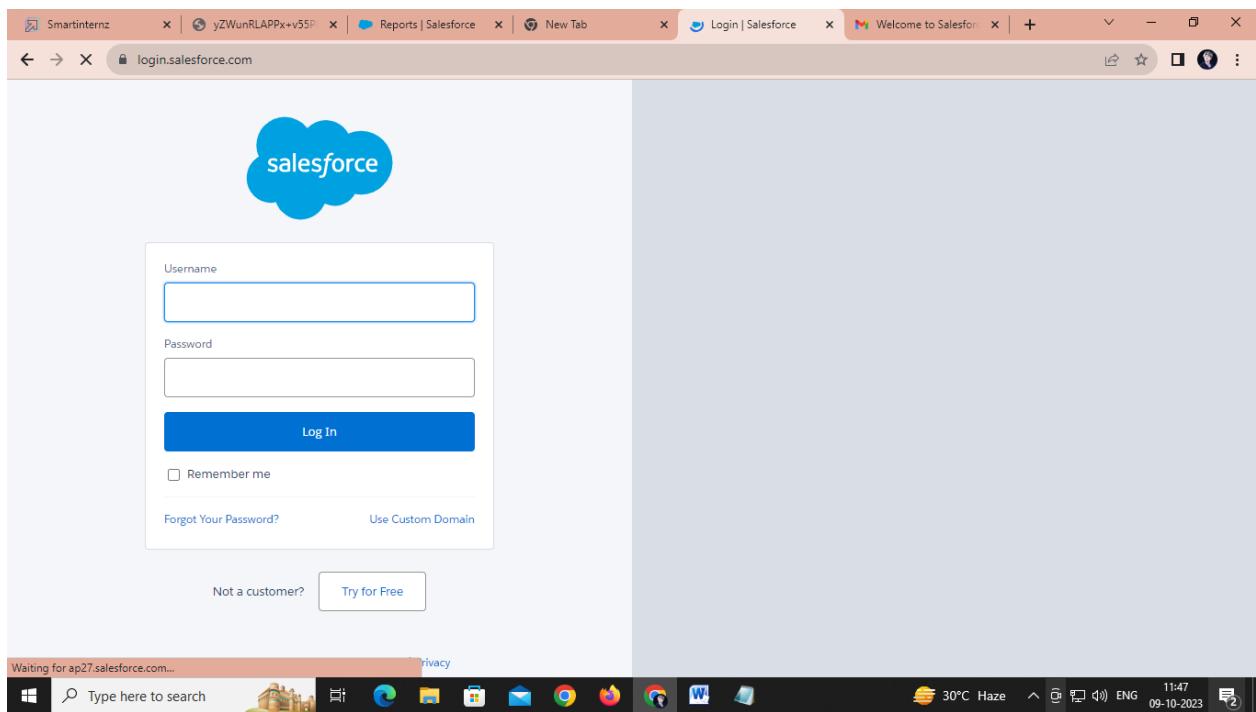

Account Activation

Go to the inbox of the email that you used while signing up. Click on the verify account to activate your account. The email may take 5-10mins, as

Login to Your Salesforce Account

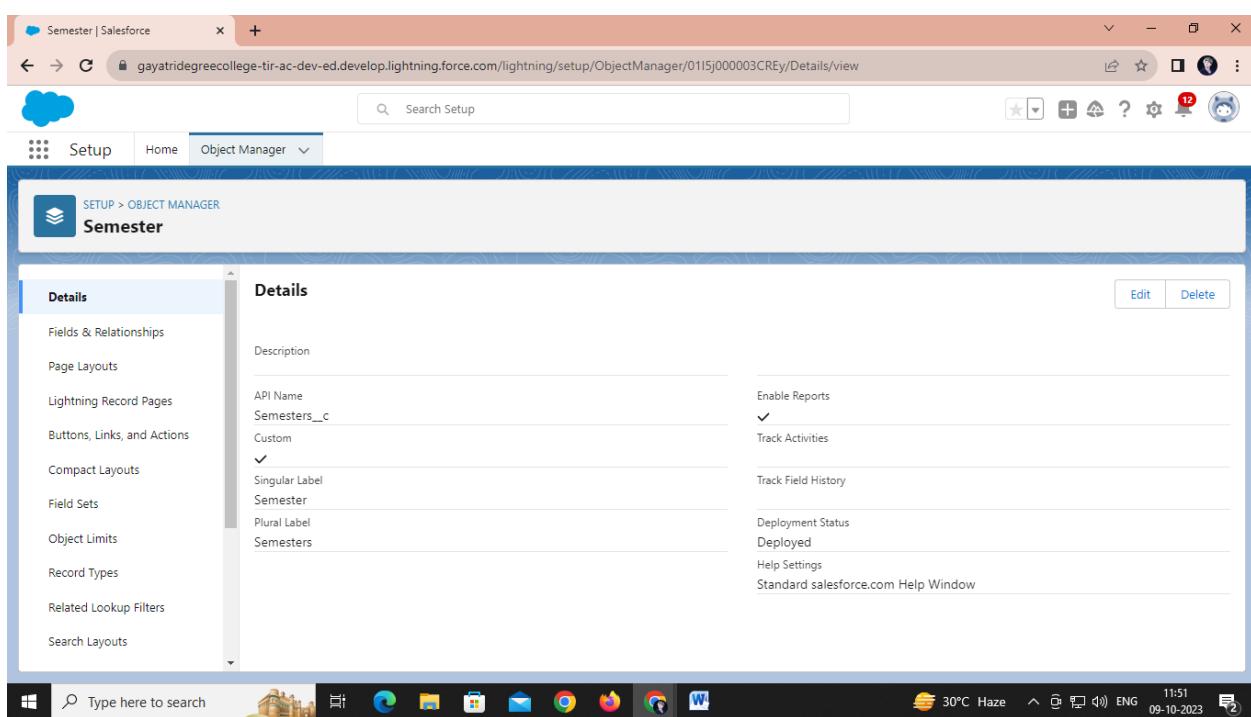

1. Go to salesforce.com and click on login.
2. Enter the username and password that you just created.
3. After login this is the home page which you will see.

Milestone – 02: Creation of Objects

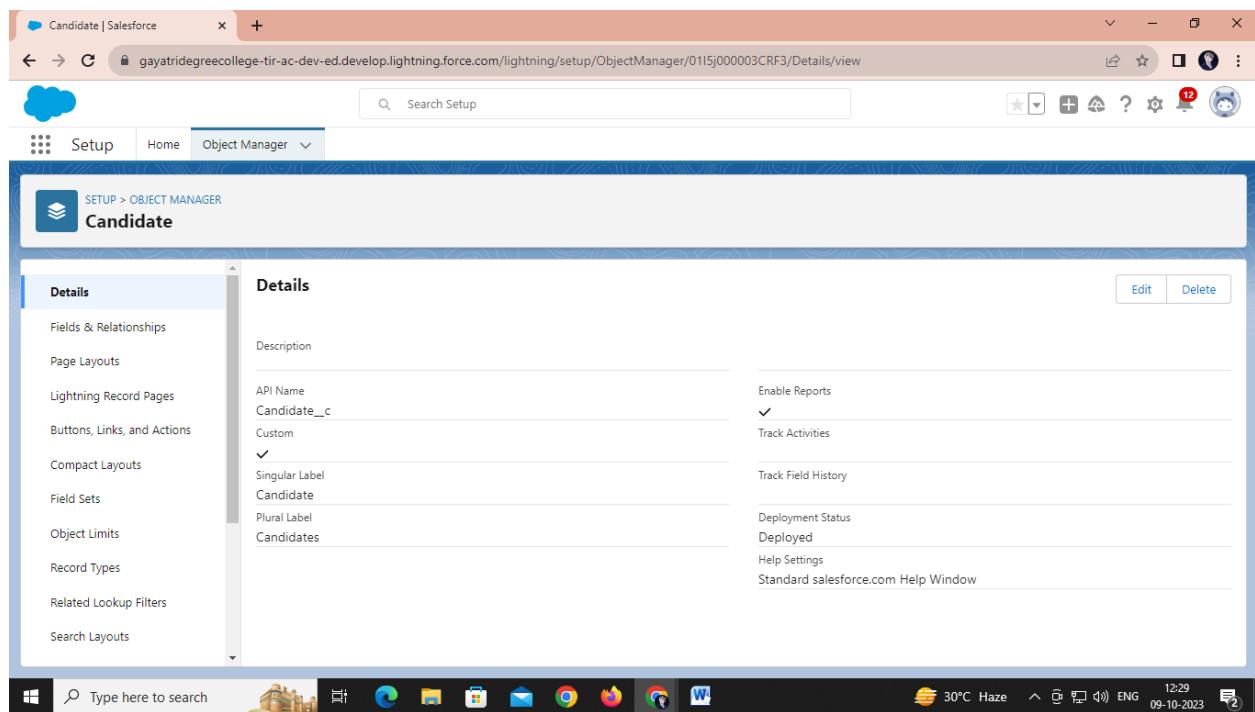

Object – Semester

1. Click on the gear icon and then select Setup.
2. Click on the object manager tab just beside the home tab.
3. After the above steps, have a look on the extreme right you will find a Create Drop down click on that and select Custom Object.
4. On the Custom Object Definition page, create the object as follows:
 5. Label: **Semester**
 6. Plural Label: Semesters
 7. Record Name: Semester Name
 8. Check the Allow Reports
 9. Check the Allow Search
 10. Click Save.

Object – Candidate

1. Click on the gear icon and then select Setup.
2. Click on the object manager tab just beside the home tab.
3. After the above steps, have a look on the extreme right you will find a Create Drop down click on that and select Custom Object.
4. On the Custom Object Definition page, create the object as follows:
 5. Label: **Candidate**
 6. Plural Label: Candidates
 7. Record Name: Candidate Name
 8. Check the Allow Reports
 9. Check the Allow Search
 10. Click Save

Object – Course Details

1. Click on the object manager tab just beside the home tab
2. After the above steps, have a look on the extreme right you will find a Create Drop down click on that and select Custom Object.
3. On the Custom Object Definition page, create the object as follows:
4. Label: **Course Details**
5. Plural Label: course details
6. Record Name: course details Name
7. Check the Allow Reports
8. Check the Allow Search
9. Click Save.

1. Object – Internal results

2. Click on the gear icon and then select Setup.
3. Click on the object manager tab just beside the home tab.
4. After the above steps, have a look on the extreme right you will find a Create Drop down click on that and select Custom Object.
5. On the Custom Object Definition page, create the object as follows:
6. Label: – **Internal results**
7. Plural Label: Internal results
8. Record Name: Internal results Name
9. Check the Allow Reports
10. Check the Allow Search
11. 10.Click Save.

Milestone – 03: Tabs

Tabs in Salesforce help users view the information at a glance. It displays the data of objects and other web content in the application.

There are mainly 4 types of tabs:

- a. Standard Object Tabs: Standard object tabs display data related to standard objects
 - b. Custom Object Tabs: Custom object tabs displays data related to custom objects.
 - c. Web Tabs: Web Tabs display any external Web-based application or Web page in a Salesforce tabs.
 - d. Visual force Tabs: Visual force Tabs display data from a Visual force Page.
- Creation of semester candidate internal result card

Now create a custom tab. Click the Home tab.

1. Enter Tabs in Quick Find and select Tabs.
2. Under Custom Object Tabs, click New.
3. For Object, select Semester.
4. For Tab Style, select any icon.
5. Leave all defaults as is. Click Next, Next, and Save
6. In the same way create Tabs for all Custom Objects -Candidate, Course Details, Lecturer Details, Internal results.

Custom Tabs

You can create new custom tabs to extend Salesforce functionality or to build new application functionality.

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you to embed external web applications and content within the Salesforce window. Visualforce tabs allow you to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the navigation menu in Lightning Experience and the mobile app. Lightning Page tabs allow you to add Lightning Pages to Lightning Experience and the mobile app.

Action	Label	Tab Style	Description
Edit Del	Candidates	Car	
Edit Del	Course Details	Balls	
Edit Del	Internal results	Heart	
Edit Del	Lecturer Details	Alarm clock	
Edit Del	Semesters	Apple	

Web Tabs

No Web Tabs have been defined

Visualforce Tabs

New What Is This?

Milestone – 04: Lightning app

Apps in Salesforce are a group of tabs that help the application function by working together as a unit. It has a name, a logo, and a particular set of tabs. The simplest app usually has just two tabs. There are two types of app –

1. Standard App: Standard apps come with every occurrence of Salesforce as default. Many features like Sales, Marketing, Community, call center content, Salesforce chatter, App Launcher, etc are present in it.

Note: The description, Logo, and Label of standard app cannot be altered.

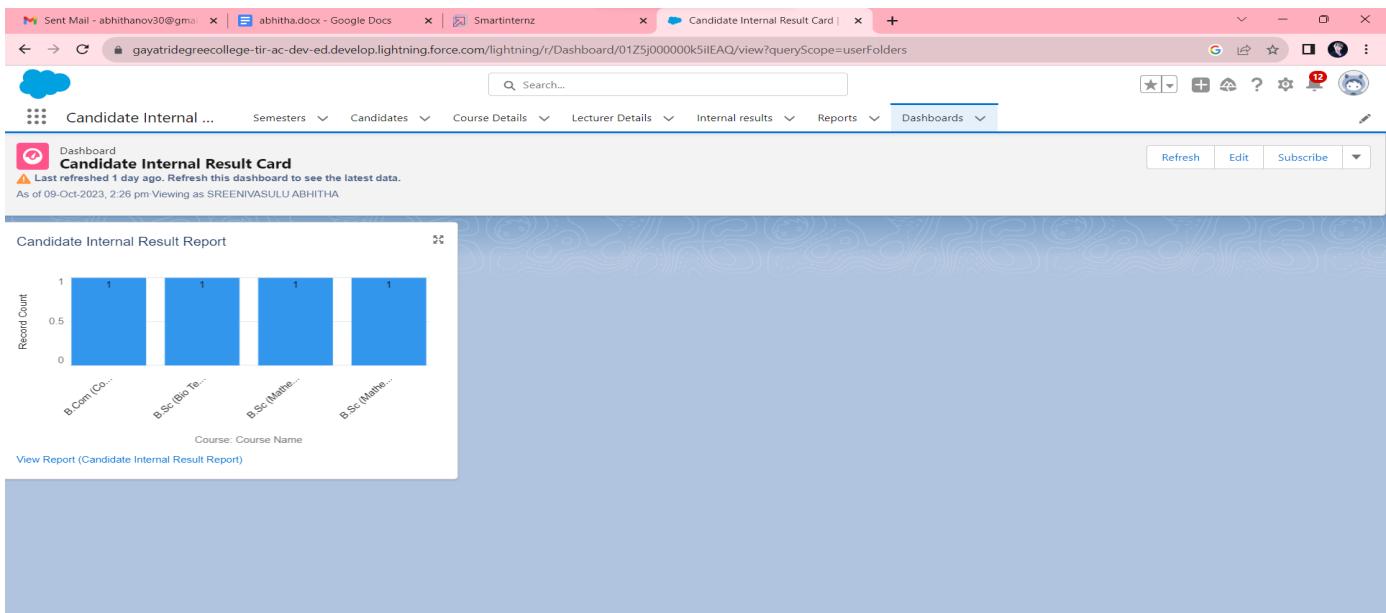

2. Custom Apps: Custom apps are created according to need of user. Custom Apps are made by using standard and custom tabs together.

Note: Logos for Custom Apps can be changed.

Create The Candidate Internal Result Card App

1. From Setup, enter App Manager in the Quick Find and select App Manager.
2. Click New Lightning App.
3. Enter Candidate Internal Result Card as the App Name, then click next
4. Under App Options, leave the default selections and click next.
5. Under Utility Items, leave as is and click Next.
6. From Available Items, select Semester, Candidate, Course Details, Lecturer Details, Internal results, Reports, and Dashboards and move them to Selected Items.
7. Click Next

From Available Profiles, select and move it to Selected Profiles. Click Save & Finish. System Administrator

Milestone – 05: fields and relationship

Fields And Relationship

Fields - Fields store data values that are required for a particular object in a record . An object relationship in Salesforce is a two-way association between two objects. Relationships are created by creating custom relationship fields on an object. This is done so that when users view records, they can also see and access

Object Name	Field Name	Data type
Semester	Semester Name Course	Text(Standard field) Lookup(Course Details)
Candidate	Candidate Name Candidate Roll Number Semester Name	Text(Standard field) Auto Number Lookup(Semester)
Lecturer Details	Lecturer Name Lecturer Role Course	Text(Standard field) Text Lookup(Course)
Course Details	Course Name Duration (Years)	Text(Standard field) Number
Internal results	Candidate Candidate Roll Number Course Marks	Lookup (candidate) Formula Lookup(Course) Number

Creation Of Text Field On "Lecturer Details" & Look Up Field For The “Candidate” Object

1. Click the gear icon and select Setup. This launches Setup in a new tab.
2. Click the Object Manager tab next to Home.
3. Select Lecturer Details
4. Select Fields & Relationships from the left navigation
5. Click New
6. Select the Text as the Data Type, click next.
7. For Field Label, enter Lecturer Role
8. Enter Length 40
9. Click Next, Next, then Save & New

The screenshot shows the Salesforce Setup interface. A red box labeled '1' highlights the gear icon in the top right corner. Another red box labeled '2' highlights the 'Object Manager' tab in the top navigation bar. A third red box labeled '3' highlights the 'Lecturer_Details__c' API name in the list of objects.

The screenshot shows the Salesforce Setup interface with the 'Fields & Relationships' tab selected in the sidebar, indicated by a red box labeled '4'. A red box labeled '5' highlights the 'New' button at the top of the list. The list table has columns: FIELD LABEL, FIELD NAME, DATA TYPE, CONTROLLING FIELD, and INDEXED.

FIELD LABEL	FIELD NAME	DATA TYPE	CONTROLLING FIELD	INDEXED

Roll-Up Summary

Lookup Relationship

Master-Detail Relationship

Creates a relationship that links this object to another object. The relationship field allows users to click on a lookup icon to select a value from a popup list. The other object is the source of the values in the list.

Creates a special type of parent-child relationship between this object (the child, or "detail") and another object (the parent, or "master") where:

- The relationship field is required on all detail records.
- The ownership and sharing of a detail record are determined by the master record.
- When a user deletes the master record, all detail records are deleted.
- You can create rollup summary fields on the master record to summarize the detail records.

The relationship field allows users to click on a lookup icon to select a value from a popup list. The master object is the source of the values in the list.

Step 2. Choose the related object

Select the other object to which this object is related.

Related To: Semester

7

Creation Of Auto Number Field On Candidate Object, Number Field On Course Details Object & Formula Field Course Details Object

Let's create a Number field on Course Details object

1. Click the gear icon and select Setup. This launches Setup in a new tab.
2. Click the Object Manager tab next to Home.
3. Select Course Detail.
4. Select Fields & Relationships from the left navigation

4. Click New & select number field, click Next

6. For Field Label Duration, enter.

7. Give Help Text- Enter Course duration value in Years

8. Click Next, Next, then Save & New.

The image consists of three vertically stacked screenshots of the Salesforce Object Manager interface.

Screenshot 1: Shows the main Object Manager screen with a red box around the "Object Manager" tab in the top navigation bar. A red number "2" is placed above the search bar. A red box highlights the "lect" search term in the search bar. A red number "1" is located in the top right corner of the header.

Screenshot 2: Shows the "Fields & Relationships" section of the Object Manager. A red box highlights the "Fields & Relationships" tab in the left sidebar. A red number "4" is placed above the tab. A red box highlights the "New" button in the top right of the list area. A red number "5" is placed above the "New" button. The list shows two items: "Address" and "Created By".

Screenshot 3: Shows the "New Number Field" configuration page. A red box highlights the "Field Label" input field containing "Duration". A red number "6" is placed above the input field. Below it, a note says: "Please enter the length of the number and the number of decimal places. For example, a number with a length of 5 and 2 decimal places can accept values up to "12345678.90"." A red box highlights the "Length" input field with the value "1". A red number "7" is placed above the "Length" field. A red box highlights the "Decimal Places" input field with the value "2". A red number "8" is placed above the "Decimal Places" field. Other fields shown include "Field Name" (Duration), "Description" (empty), and "Help Text" (Enter Course duration value in Years).

Now Let's create a Formula field on Internal Results object

1. Click the gear icon and select Setup. This launches Setup in a new tab.

2. Click the Object Manager tab next to Home.

3. Select Internal results.

4. Select Fields & Relationships from the left navigation.

5. Click New

6. Select the Formula as the Data Type, then click Next.

7. Give field label Candidate Roll Number

8. Select formula return type text, Click Next

9. Click Insert Field

10. Create and insert formula Candidate r.Candidate_Roll_Number c, and then click Insert.

11. Click Next, Next, then Save.

The screenshot shows the Salesforce Object Manager. A red box labeled '1' highlights the 'New' button in the top right corner. A red box labeled '2' highlights the 'Object Manager' tab in the top navigation bar. A red box labeled '3' highlights the API name 'Lecturer_Details__c' in the list of objects.

The screenshot shows the 'Fields & Relationships' section of the custom object creation page. A red box labeled '4' highlights the 'Fields & Relationships' tab in the sidebar. A red box labeled '5' highlights the 'New' button in the top right corner of the list table.

The screenshot shows the 'Data Type' selection screen. A red box labeled '6' highlights the 'Formula' radio button. The other options shown are 'None Selected' and 'Auto Number'. A tooltip for 'Formula' describes it as a read-only field derived from a formula expression.

Field Label **Candidate Roll Number** 7

Field Name **Candidate_Roll_Number** 8

Auto add to custom report type Add this field to existing custom report types that contain this entity 9

Formula Return Type

None Selected Select one of the data types below.

Checkbox Calculate a boolean value.
Example: `TOORIGIN > CloseDate`

Currency Calculate a dollar or other currency amount and automatically format the field as a currency amount.
Example: `Gross Margin = Amount - Cost_c`

Date Calculate a date, for example, by adding or subtracting days to other dates.
Example: `Reminder Date = CloseDate - 7`

DateTime Calculate a datetime, for example, by adding a number of hours or days to another datetime.
Example: `Next = NOW() + 1`

Number Calculate a numeric value.
Example: `Fahrenheit = 1.8 * Celsius_c + 32`

Percent Calculate a percent and automatically add the percent sign to the number.
Example: `Discount = (Amount - Discounted_Amount_c) / Amount`

Text Create a text string, for example, by concatenating other text fields.
Example: `Full Name = LastName & ", " & FirstName`

Example: `Full Name = LastName & ", " & FirstName` [More Examples...](#) 10 [Operators & Functions](#)

[Simple Formula](#) [Advanced Formula](#)

17 Close

The screenshot shows the Salesforce Setup interface. The top navigation bar has tabs for Smartinternz, Recently Viewed, Candidate, Fwd: doc - g, abhitha.docx, abhitha.docx, Login | Sales, and Developer E. There are also icons for Home, Object Manager, and a gear icon for Setup.

The main content area is titled "SETUP > OBJECT MANAGER" and shows the "Candidate" object. On the left, a sidebar lists various setup categories: Details, Fields & Relationships (which is selected), Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, Search Layouts, List View Button Layout, and Restriction Rules.

The right pane displays the "Candidate Custom Field" named "Candidate Roll Number". It includes sections for "Custom Field Definition Detail", "Field Information", "General Options", and "Auto Number Options".

The status bar at the bottom shows the date and time: 9:43 PM 10/11/2023.

Now Let's create an auto number field on Candidate object

1. Click the gear icon and select Setup. This launches Setup in a new tab.
2. Click the Object Manager tab next to Home.
3. Select Candidate.
4. Select Fields & Relationships from the left navigation
5. Click New
6. Select the Auto Number as the Data Type, then click Next.
7. For Field Label Candidate enter Roll Number.
8. Give a display format
9. Click Next, Next, then Save & New.

The screenshot shows the Salesforce Object Manager interface. The top navigation bar has tabs for Setup, Home, and Object Manager (which is selected). There are also icons for Schema Builder and Create.

The main content area is titled "SETUP > OBJECT MANAGER" and shows the "Object Manager" page. A search bar contains the text "lect".

The table below lists the objects:

LABEL	API NAME	TYPE	DESCRIPTION	LAST MODIFIED	DEPLOYED

Milestone – 06: users

Creating A User

1. From Setup, in the Quick Find box, enter Users.
2. Select Users.
3. Click New User.
4. Enter the First Name, Class, Last Name, Teacher and (Your) email address and a unique username in the form of an email address. By default, the username is the same as the email address.
5. Select a User License as salesforce.

NOTE- As Salesforce license can only be used by 2 Users at a time in Dev Org, so If you don't find salesforce license then deactivate a user who has salesforce license Or change the license type from Salesforce to any other.

6. Select a profile as Standard user.

7. Check Generate new password and notify the user immediately to have the user's login name and a temporary password emailed to your email.

The screenshot shows the Salesforce Setup interface with the 'Users' tab selected. A search bar at the top left contains the text 'user' (boxed with red number 1). On the left sidebar, the 'Users' item under 'User Management Settings' is highlighted (boxed with red number 2). The main content area displays the 'All Users' page with a table of existing users. At the top of the table, there are three buttons: 'New User' (boxed with red number 3), 'Reset Password(s)', and 'Add Multiple Users'. The table lists five users with their details and roles:

Action	Full Name	Alias	Username	Role	Active	Profile
<input type="checkbox"/> Edit	1.User	u1	utkarsh2@vanshiv.com	Operator_1	<input checked="" type="checkbox"/>	operator
<input type="checkbox"/> Edit	2.User	u2	utkarsh3@vanshiv.com	Operator_2	<input checked="" type="checkbox"/>	operator
<input type="checkbox"/> Edit	Chatter Expert	Chatter	chatty.00d2w00000rs8akeaj.muirojkjxf1@chatter.salesforce.com	Chatter Free User	<input checked="" type="checkbox"/>	
<input type="checkbox"/> Edit	Technologies, Vanshiv	VTech	vehicledemo@vanshiv.com	System Administrator	<input checked="" type="checkbox"/>	
<input type="checkbox"/> Edit	Teddy.John	j.ted	utkarsh1@vanshiv.com	Vehicle Manager	<input checked="" type="checkbox"/>	Vehicle Manager

The screenshot shows the 'User Edit' page for a new user. The 'General Information' section on the left contains fields for First Name ('Class'), Last Name ('Teacher'), Alias ('cteach'), Email ('+++@++++.com'), Username ('+++@++++.com'), Nickname ('class'), Title (''), Company (''), and Department (''). These fields are all boxed with red number 4. On the right side, there are several dropdown and checkbox options for the user's profile. A large red box groups the following settings:

- Role: <None Specified>
- User License: Salesforce
- Profile: Standard User
- Active:
- Marketing User:
- Offline User:
- Knowledge User:
- Flow User:
- Service Cloud User:

All Users

On this page you can create, view, and manage users.

In addition, download SalesforceA to view and edit user details, reset passwords, and perform other administrative tasks from your mobile devices: [iOS](#) | [Android](#)

Milestone – 07: user adoption

User Adoption

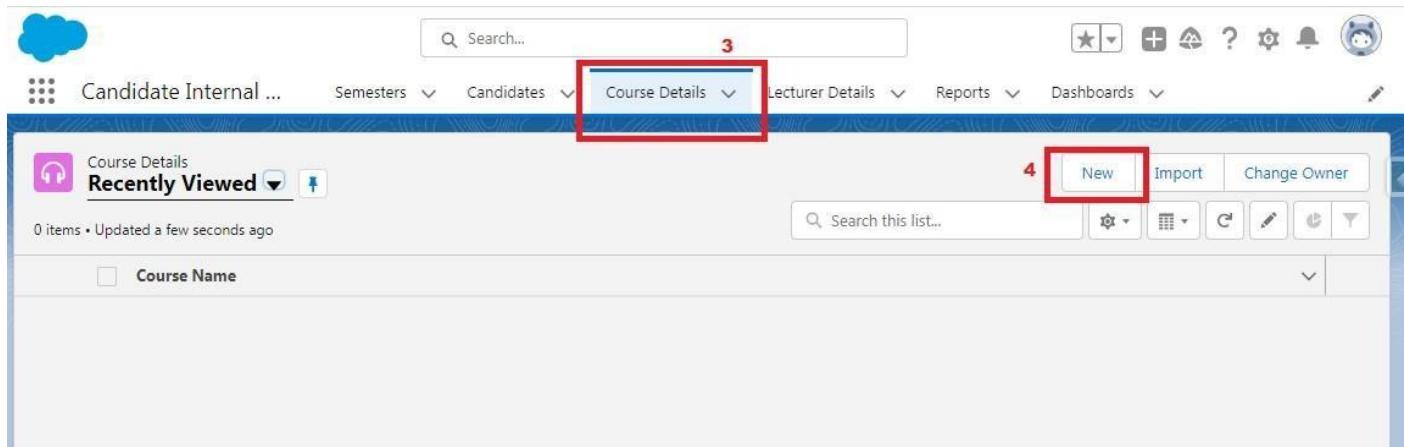

Salesforce user adoption is the simple act of enabling a user to use SFDC's full CRM capabilities by creating strategies around onboarding, training, and continued development – all to drive overall digital adoption.

Create Record (Course Details)

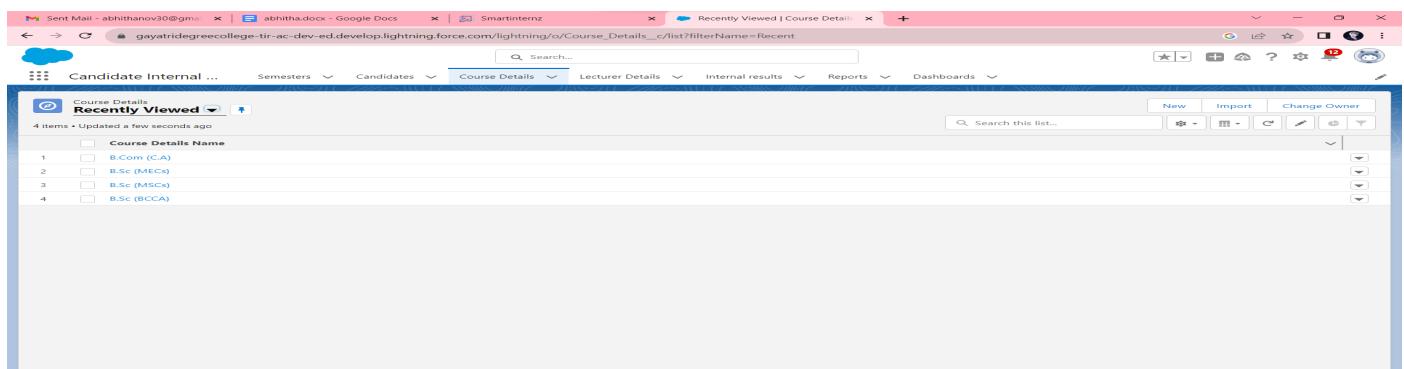

Create Records on Course Details Objects

1. Click on App Launcher on left side of screen.
2. Search Candidate Internal Result Card App & click on it.
3. Click on Course Details tab.
4. Click new button
5. Fill all Course Details record details.

6. Click on Save Button.

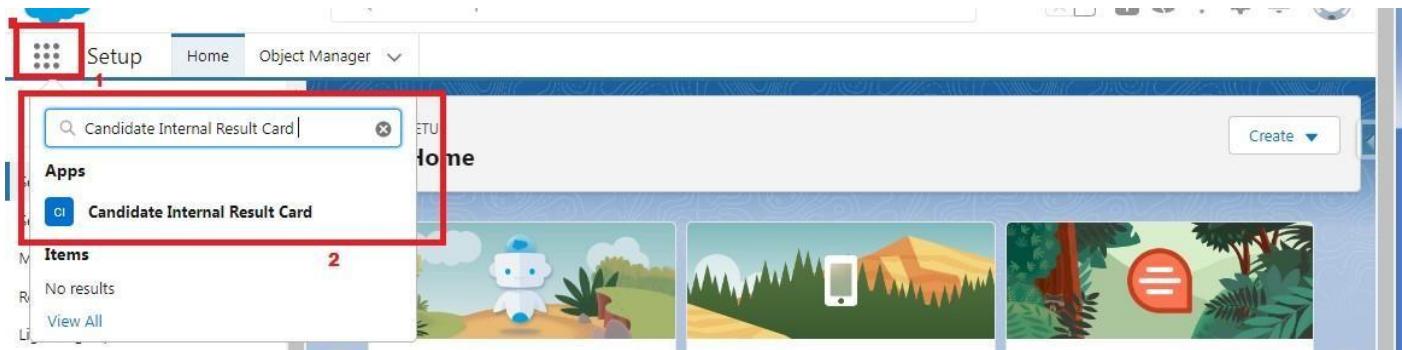

This screenshot shows the 'New Course Details' form. The 'Information' section contains fields for 'Course Name' (MBA) and 'Duration' (2). To the right, the 'Owner' field is set to 'Vanshiv Technologies'. At the bottom, there are three buttons: 'Cancel', 'Save & New', and a red-highlighted 'Save' button.

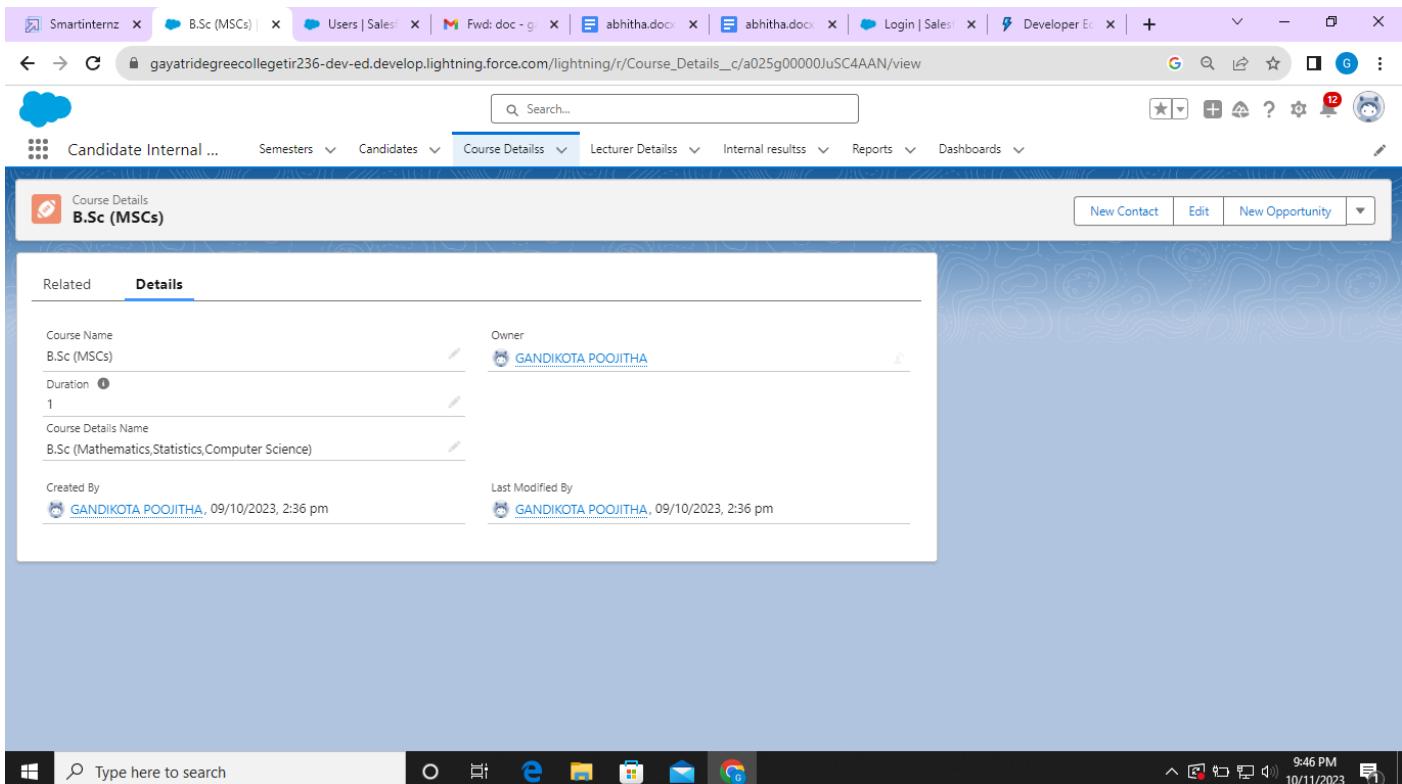

View Record (Course Details)

Viewing the Records of Course Detail Object

1. Click on App Launcher on left side of screen.
2. Search Candidate Internal Result Card & click on it.
3. Click on Course details Tab.
4. Click on any record name. you can see the details of the Driver

Candidate Internal ...				Semesters	Candidates ³	Course Details	Lecturer Details	Reports	Dashboards
				New	Import	Change Owner			
4 items • Sorted by Course Name • Filtered by All course details • Updated a few seconds ago							Search this list...		
	Course Name ↑	Duration	Created Date						
1	BCA	3.00	09/04/2023, 7:39 pm

3	Btech	4.00	09/04/2023, 7:38 pm						
4	MBA	2.00	09/04/2023, 7:38 pm						

The screenshot shows the Salesforce Lightning Experience. The URL is "gayatridegreecollegeir236-dev-ed.lightning.force.com/lightning/r/Course_Details_c/a025g00000JuSC4AAN/view". The page displays the "Course Details" record for "B.Sc (MSCs)". The record has the following fields:

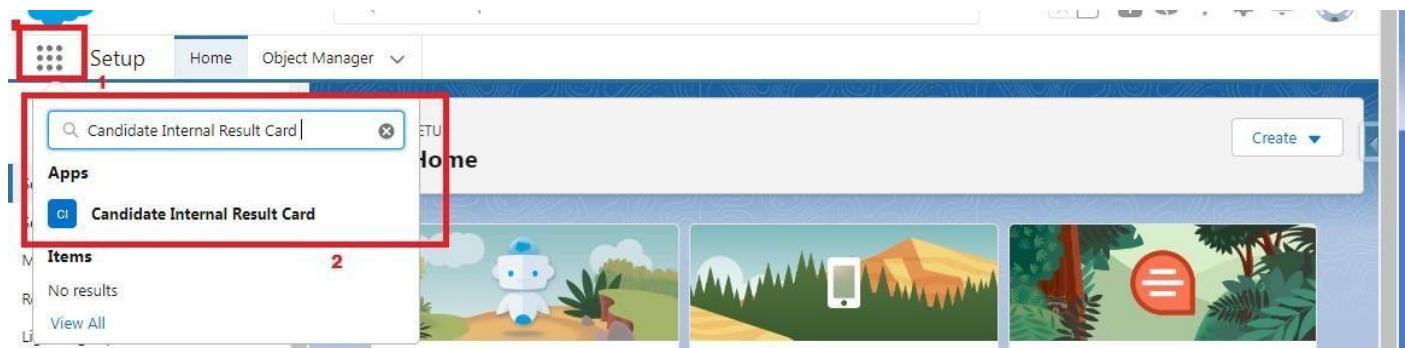

- Course Name: B.Sc (MSCs)
- Duration: 1
- Course Details Name: B.Sc (Mathematics,Statistics,Computer Science)
- Created By: GANDIKOTA POOJITHA, 09/10/2023, 2:36 pm
- Last Modified By: GANDIKOTA POOJITHA, 09/10/2023, 2:36 pm
- Owner: GANDIKOTA POOJITHA

A red box highlights the "Course Name" field.

Delete Record (Course Details)

Deleting Records of Course Details Object

1. Click on App Launcher on left side of screen.
2. Search Candidate Internal Result Card & click on it.
3. Click on Course details Tab.
4. Click on Arrow at right hand side on that Particular record.
5. Click delete and delete again.

The screenshot shows the 'Course Details' page in Salesforce. A red box highlights the 'Course Details' tab in the top navigation bar. The main area displays a table of course data with columns: Course Name, Duration, and Created Date. The table contains four rows of data: BCA (Duration 3.00, Created 09/04/2023, 7:39 pm), BSc (Duration 3.00, Created 09/04/2023, 7:39 pm), Btech (Duration 4.00, Created 09/04/2023, 7:38 pm), and MBA (Duration 2.00, Created 09/04/2023, 7:38 pm). To the right of the table, there is an 'Edit' button and a 'Delete' button, both highlighted with red boxes. The 'Delete' button has a sub-menu with 'Delete' and 'Change' options, also highlighted with a red box.

	Course Name	Duration	Created Date
1	BCA	3.00	09/04/2023, 7:39 pm
2	BSc	3.00	09/04/2023, 7:39 pm
3	Btech	4.00	09/04/2023, 7:38 pm
4	MBA	2.00	09/04/2023, 7:38 pm

The screenshot shows the 'Recently Viewed' page in Salesforce. A red box highlights the 'Recently Viewed' tab in the top navigation bar. The main area displays a table of recently viewed course details with columns: Course Details Name. The table contains four rows of data: B.Sc (MECS), B.Com (CA), B.Sc (MSCs), and B.Sc (BCCA). To the right of the table, there is an 'Edit' button and a 'Delete' button, both highlighted with red boxes. The 'Delete' button has a sub-menu with 'Delete' and 'Change' options, also highlighted with a red box.

	Course Details Name
1	B.Sc (MECS)
2	B.Com (CA)
3	B.Sc (MSCs)
4	B.Sc (BCCA)

Milestone – 08: what are Reports?

What Are Reports?

Reports in Salesforce is a list of records that meet a particular criterion which gives an answer to a particular question. These records are displayed as a table that can be filtered or grouped based on any field.

There are 4 types of report formats in Salesforce:

Tabular Reports:

This is the most basic report format. It just displays the row of records in a table with a grand total. While easy to set up they can't be used to create groups of data or charts and also cannot be used in Dashboards. They are mainly used to generate a simple list or a list with a grand total.

Summary Reports:

It is the most commonly used type of report. It allows grouping of rows of data, view subtotal, and create charts.

Matrix Report:

It is the most complex report format. Matrix report summarizes information in a grid format. It allows records to be grouped by both columns and rows. It can also be used to generate dashboards. Charts can be added to this type of report.

Joined Reports:

These types of reports let us create different views of data from multiple report types. The data is joined reports are organized in blocks. Each block acts as a sub-report with its own fields, columns, sorting, and filtering. They are used to group and show data from multiple report types in different views.

Report types:

Report type determines which set of records will be available in a report. Every report is based on a particular report type. The report type is selected first when we create a report. Every report type has a primary object and one or more related objects. All these objects must be linked together either directly or indirectly.

A report type cannot include more than 4 objects. Once a report is created its report type cannot be changed.

There are 2 types of report types:

Standard Report Types: Standard Report Types are automatically included with standard objects and also with custom objects where "Allow Reports" is checked. Standard report types cannot be customized and automatically include standard and custom fields for each object within the report type. Standard report types get created when an object is created, also when a relationship is created.

Note: Standard report types always have inner joins.

Custom Report Types: Custom report types are reporting templates created to streamline the reporting

process. Custom Reports are created by an administrator or User with “Manage Custom Report Types” permission. Custom report types are created when standard report types cannot specify which records will be available on reports.

In custom report types we can specify objects which will be available in a particular report.

The primary object must have a relationship with other objects present in a report type either directly or indirectly.

There are 3 types of access levels of folders:

Viewer: With this access level, users can see the data in a report but cannot make any changes except cloning it into a new report

Editor: With this access level, users can view .

Manager: With this access level, users can do everything Viewers & Editors can do, plus they can also control other user's access levels to this folder. Also, users with Manager Access levels can delete the report.

Create Report

1. Click App Launcher
2. Select Candidate Internal Result Card App
3. Click reports tab
4. Click New Report.
5. Click the report type as Semesters with Course Click Start report.
6. Customize your report, in group rows select - Course Name, in group column Select Duration (In this way we are making a Matrix Report).
7. Click refresh
8. Click save and run
9. Give report name – Candidate Internal Result Report
- 10.Click Save

1. On the report builder page, locate the "Fields" pane on the left-hand side.
2. Find the field for which you want to create a bucket field and drag it to the report preview section.
3. Click on the field in the report preview to open the field properties.
4. In the field properties, locate the "Summarize" option and click the drop-down arrow.
5. Select "Bucket Field" from the available options.
6. In the bucket field settings, define the buckets based on your requirements. You can specify the bucket ranges, labels, and groupings.
7. Click "OK" or "Apply" to save the bucket field settings.
8. Customize the report layout and add any additional fields or filters as needed.
9. Once you are satisfied with the report setup, click "Save" to save the report.

Range	Bucket

The screenshot shows a report titled "Report: Semesters with Course" under "Candidate Internal Result Report". The table displays course details across four semesters:

Course: Course Name	Semester: Semester Name	Course: Course Details Name	Duration
B.Com (Computer Applications) (1)	Sem - 03	B.Com (CA)	Large Course
B.Sc (Bio Technology, Chemistry, Computer Applications) (1)	Sem - 02	B.Sc (BCCA)	Small Course
B.Sc (Mathematics, Electronics, Computer Science) (1)	Sem - 01	B.Sc (MECs)	Medium Course
B.Sc (Mathematics, Statistics, Computer Science) (1)	Sem - 01	B.Sc (MSCs)	Small Course
Total (4)			

At the bottom, there are buttons for Row Counts, Detail Rows, Subtotals, and Grand Total.

Milestone – 06: dashboards

Dashboards

Dashboards let you curate data from reports using charts, tables, and metrics. If your colleagues need more information, they're able to view your dashboard's data-supplying reports. Dashboard filters make it easy for users to apply different data perspectives to a single dashboard.

Create Dashboard

1. Click on Dashboards tab from the Candidate Internal Result Card application.
2. Click on new dashboard.
3. Give name- Candidate Internal Result Card
4. Click create
5. Give your dashboard a name and click on +component
6. Select the Candidate Internal Result Report which you created.
7. For the data visualization select any of the chart, table etc. as per your choice/requirement.
8. Click add.
9. Click save.

The screenshot shows the dashboard creation interface. The top navigation bar has several tabs: Travel Approval, Departments, Employee Details, Expenses, Expense Items, Reports, Dashboards (which is highlighted with a red box), and Travel Approvals. Below the navigation bar, there are sections for Dashboards (Recent, 3 items) and a search bar for recent dashboards. A large button labeled "New Dashboard" is also highlighted with a red box.
